## PROJECT UPDATES

The construction of Durga Petals is going on in full swing and right on schedule. We are happy to report that the construction of the first floor has been completed and the construction of the second floor is in progress and will be completed soon.

## A BIRD'S EYE VIEW OF YOUR DREAM HOME

In the air, all the way up from 300 feet, we are excited to present to you, a view of your dream home. From the surrounding areas of your future residence to tech parks, offices and shopping malls, the bird's eye view will even show you how far the construction has progressed. Check out the video by clicking the **Play button** and tell us what you think!

## MiVan TECHNOLOGY

MiVan Technology will completely drive the construction of Durga Petals to ensure that customers receive a home that is durable, immensely resistant to earthquakes, with smooth walls and slab finishing. This will guarantee a strong home with clean lines and less clutter (no beams and columns) and will be ready much faster than a typical construction model. We chose to create Durga Petals out of MiVan Technology to guarantee a spacious and durable home that our customers can be proud of.

## DURGA PETALS AT THE CREDAI EXPO

This expo took place on August 23-24 at the Park Plaza hotel on Outer Ring Road. With 49 stalls and a total of 6 banking institutions participating, we had a great time at the event and met some very interested home buyers.

## PHOTOGRAPHY WORKSHOP

Durga Petals organised a **Visual Emote 4<sup>th</sup> Dimension Photography Workshop** on September 13<sup>th</sup> for its customers for a fun day of learning along with tea and snacks at the Durga Petals Experience Centre. The workshop encouraged participants to see ordinary subjects from an extraordinary perspective and introduced the participants to the fourth dimension of photography- that of 'story'.

## DURGA IN THE NEWS

Durga Petals was featured in the Property Times segment in the Times of India on August 25<sup>th</sup> as an exciting new residential address in the fast-growing commercial hub of Bangalore.
